DETAILED ACTION

Drawings

1. The drawings filed on 2-09-04 are accepted.

Allowable Subject Matter

2. Claims 1- 6 are allowed.

The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest, alone or in combination, the following limitations: “a fractile array having a plurality of antenna elements uniformly distributed along a Peano-Gosper curve” as claimed in claim 1; “tiling a plane with a plurality of non-uniform shaped unit cells of an antenna array; optimizing the non-uniform shape of the unit cells; and optimizing the tiling of said unit cells” as claimed in claim 3; “a fractile- array comprises an array having an irregular boundary contour, wherein the irregular boundary contour comprises a plane tiled by a plurality of fractiles, the plurality of fractiles covers the plane without any gaps or overlaps, comprising the steps of a) employing a pattern multiplication for fractile array comprising: deriving a product formulation for the radiation pattern of a fractile array for a desired growth” as claimed in claim 5; and a method for rapid radiation pattern formation of **a Peano-Gosper fractile array**, including the limitation “a) employing a pattern multiplication for fractile arrays, comprising: deriving a product formulation for the radiation pattern of a fractile array for a desired stage of growth” as claimed in claim 6. It is for these reasons in combination with all the other limitations in the independent claims 1, 3, 5 and 6, that claims 1-6 are allowed.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
